Software Documentation: Overview

Introduction to the Software

Our software is designed to help doctors manage their practices efficiently. It includes features for patient management, appointment scheduling, billing and invoicing, and reporting.

Key Features

- Patient Management: Easily manage patient information, including medical history and contact details.

- Appointment Scheduling: Schedule and manage appointments with a user-friendly calendar interface.

- Billing and Invoicing: Create invoices, process payments, and generate financial reports.

- Reporting: Generate detailed reports on patient data, appointments, and financials.

- User Management: Manage user roles and permissions within the system.

System Requirements

Operating System: Windows 10 or higher, macOS 10.14 or higher, Linux (Ubuntu 18.04 or higher)

Processor: Intel i5 or equivalent

RAM: 8 GB or higher

Storage: 500 MB of free space

Internet Connection: Required for online features and updates
